

Prestige Care, Inc.
Prestige Senior Living, L.L.C.

Levels of Care:

Independent Living

ASSISTED LIVING

Memory Care

Post-Acute Rehabilitation

Hear it from those who know best...

I am treated with the most respect, kindness, concern, love and attention to details that one could ever want or need. I truly feel loved!!

~ Helen,
resident of Prestige Assisted Living at Lancaster

"For my father, Prestige has been a saving grace. He had an accident and after rehab could no longer live alone. Prestige Assisted Living at Sierra Vista has given him the ability to feel as though he is still independent.

Helen,
daughter of a resident of Prestige Assisted Living at Sierra Vista

Who is Assisted Living best suited for?

- Those who need some assistance in daily activities, including bathing, cleaning, dressing and medication management.
- Those looking for a supportive environment after leaving a skilled nursing center

Benefits of Assisted Living

24/7 STAFF: If assistance is required at any time, Assisted Living communities have caretaking staff working around the clock. No matter the time and issue, residents are always able to have access to caretakers and nurses to help them stay happy and healthy.

SOCIALIZATION: Residents in Assisted Living Communities are surrounded by peers in similar situations to them. There are plenty of opportunities to meet new people and try out activities with friends.

ON-SITE SERVICES: Residents in assisted living communities have access to many amenities. They have transportation services, cleaning and laundry, meal service and more. Residents can spend their time doing what they want and get help with things they don't want to, or can't, do.

ACTIVITIES AND EXERCISE PROGRAMS: There's always things to do in a senior living community. Communities have packed calendars with activities to fit all your needs. Commonly offered are exercise classes, crafts, games, religious services and more. These are all just walking distance from your apartment.

EASES FUTURE TRANSITIONS: If a resident gets to a point where they will require a higher level of care, the transition to Memory Care is easier. Rather than causing an abrupt move from a family home to a Memory Care apartment, starting in an assisted living community then moving to Memory Care can be much easier.
