Hear it from those who know best...

We are so pleased with the quality care and the attention to detail our parents get here at Expressions. We have told our friends and other family to check them out. I am eternally grateful for Expressions at Enumclaw.

For our family Prestige and Expressions has been a blessing. The caregivers and staff have become an extension of our own family...Honestly, I can't imagine my mom living anywhere else!

Who is Memory Care designed for?

- Those living with Alzheimer's or other forms of dementia and would benefit from professional, 24-hour care

Benefits of Memory Care Communities

EXPRESSIONS MEMORY CARE PROGRAMMING: Prestige offers our award-winning Memory Care programming "Expressions," which includes innovative care techniques and life enrichment programs specifically designed for those with dementia to feel active, engaged and comfortable. Caretakers in these communities create personalized care plans to make each resident feel safe and respected.

ON-SITE SERVICES: Residents in assisted living communities have access to many amenities. They have transportation services, cleaning and laundry, meal service and more. Residents can spend their time doing what they want and get help with things they don't want to, or can't, do.

24/7 STAFF: If any assistance is required at any time, memory care communities have caretaking staff working around the clock. No matter the time and issue, residents are always able to have access to caretakers and nurses to help them stay happy and healthy.

SOCIALIZATION: Residents in memory care are surrounded by peers in similar situations to them. There are plenty of opportunities to meet new people and try out activities with friends.

Communities have packed calendars with activities to fit all your needs. Commonly offered are exercise classes, crafts, games, religious services and more. These are all just walking distance from your apartment.
